<i>Background</i>	<p>The legendary Ningxia wolfberry (also known as the goji berry) has long been sought after for its nutritional content and its benefits. With documented use dating back to the Ming Dynasty, it is one of the earliest known superfruits utilised in ancient Chinese practices.</p> <p>Wolfberry puree is the core ingredient in NingXia Red. The wolfberry is revered for its unparalleled nutritional profile, which includes fibre, zeaxanthin, critical amino acids, polyphenols, polysaccharides, and a distinctive ratio of trace nutrients. To ensure that you're not missing out on any of these transformative wolfberry benefits, Young Living uses wolfberry puree instead of juice, so NingXia Red includes the goodness of the whole berry: the skin, juice, and pulp.</p> <p>NingXia Red is also formulated with a dynamic blend of blueberry, plum, sweet cherry, aronia, and pomegranate juices, plus grape seed extract, vanilla, and stevia, which help give it its vibrant taste and colour. What really sets NingXia Red apart is its blend of Orange, Tangerine, Lemon, and rare Yuzu essential oils, contributing to NingXia Red's delicious flavour.</p>

FAQ

Q. Why is there sediment in the NingXia Red bottles?

A. The fruits included in the NingXia Red formula are prone to settle in the bottle. If the bottle is being stored on its side the sediment may be more prone to settle in the neck of the bottom than if you are storing it upright. Please shake the bottle before use as instructed on the product label for best results.

Q. What is NingXia Red's shelf life?

A. Unopened, NingXia Red should remain safe and effective at least 24 months from its production. Once opened, you should refrigerate Red and enjoy it within 30 days.
